Skill note: policy-funding-card

Trigger: one Policy Address, turned into a funding card and scored on the IPOs of the industries it names, from the delivery date.

Use it when a new address is published and the question is which industries received a stated sum, whether the sum is new, and what those industries' IPOs did afterwards.

Do not use it when there is no official text, when the question is a forecast, or when a newspaper figure would replace an HKEX figure.

The second run used only the 2022 XML. It found HK$40,000.0 million of new money and marked the HK$5 billion Strategic Tech Fund as already in place. It does not contain the additional HK$1 billion for the Innovation and Technology Venture Fund, which is a 2026 sentence.

Two runs side by side

	2026 address, main card	2022 address, second run
New money in the address	HK$1,300.0 million	HK$40,000.0 million
Already in place	HK$2,000.0 million	HK$5,000.0 million
Industry window	16 Sep 2026 to 29 Sep 2026, 14 days	19 Oct 2022 to 24 Oct 2023
Main Board in that window	6 IPOs, HK$20,708.6 million	79 IPOs, HK$47,269.0 million
Life and health	0.0	8,215.2, 17.4%
New energy	0.0	0.0

2022 address: the 12 months before and the window after, HK$ billion
