Skill note: policy-funding-card

Trigger: one Policy Address, turned into a funding card scored on the HKEX year after it.

Use it when a new address is published and the question is which industries received a stated sum, and what IPO funds and turnover did in the next calendar year.

Do not use it when there is no official text, when the question is a forecast, or when a newspaper figure would replace an HKEX figure.

The second run used only the 2022 XML. Its outcome is the 2023 HKEX year. It does not contain the additional HK$1 billion for the Innovation and Technology Venture Fund, which is a 2026 sentence.

Two runs side by side

	2026 address, main card	2022 address, second run
Outcome window	2027, not stated in source	2023 full year
IPO funds in that window	not stated in source	HK$46,294.9 million, down 55.8%
Venture-fund sentence	Additional HK$1 billion	That sentence is absent
Largest stated fund	HK$1 billion, four programmes	Co-Investment Fund, HK$30 billion
Life and health in the next year	not stated in source	Kelun-Biotech, HK$1.56 billion
New energy in the next year	not stated in source	REPT BATTERO HK$2.12 billion; hydrogen HK$1.56 billion
